42. Downloading Software for the MP Controller

This knowledge base website does **not** have any software for the MP Controller. This is for documentation purposes only.
To download plugins and and other software for the MP Controller find in your email's inbox the initial setup message received by us when you initially purchased the MP Controller.
That email message has all the information and guides on how to download related software.

If you don't have the email message, contact us here.
