5. MP MIDI App - September 2024 Update

In the update MPMIDI -v1.0-9d00f78--H2024-09-18--B2024-09-19 (or later version) we have introduced some exciting new features.

This update

- Sends keyboard keys. Option placed under each button's Push Options.
- Joker Encoder. Click and control any variable parameter on anything (not just plugins).
- Allows you to select to not send CC per button (dropdown of button function).
- When running the plugin version, it displays the tray(Win)/topbar(Mac) icon for easy access.

- Windows Send Keys documentation
- Windows Joker Encoder (Windows & MacOS)
- Mac Send Keys documentation
